

Curriculum Vitae

03/12/2010

Name: Joshua L. Keene
Born May 5, 1983 in Sedro Woolly, WA

Current Address: 802 Yegua St.
College Station TX, 77801

Cell Phone: (509) 290-1631

Email: jlkeene@tamu.edu

II. Education/Honors

2005 B.A. (Cum Laude) in Anthropology from Eastern Washington University
with a minor in Art; Cumulative GPA: 3.59

2009 M.A. in Anthropology from Texas A&M University;
Thesis: *Site Formation Processes at the Buttermilk Creek Site (41BL1239),
Bell County, Texas.*

2009-present Ph.D. candidate in Anthropology, Texas A&M University

III. Professional Experience

Research and Field Experience

Date: September 2010-present
Supervisor: Dr. Michael Waters, Center for the Study of the First Americans,
Texas A&M University

Experience: Non-instructional research assistant, including Illustration of
Hogeye Cache Clovis Bifaces and analysis of materials from the
Buttermilk Creek Site (41BL1239)

Date: May-August 2010 (14 weeks)
Supervisor: Clayton Marler, Idaho National Laboratory
Experience: Geoarchaeological consultant, assistant field director, field
technician for survey/shovel testing project along Big Lost River in
INL, Upper Snake River Plain, Idaho.

Date: July - August 2009 (4 weeks)
Supervisor: Drs. Ted Goebel (PI) and Michael Waters, Center for the Study of the First Americans
Experience: Field technician and geoarchaeology field assistant at archaeological excavations of the Serpentine Hot Springs site in Bering Land Bridge National Preserve, Alaska.

Date: June - July 2009 (4 weeks)
Supervisor: Drs. Kelly Graf (PI) and Ted Goebel, Center for the Study of the First Americans
Experience: Field technician at archaeological excavations of the Owl Ridge site near Denali National Park, Alaska.

Date: June 2009 (3 weeks)
Supervisor: Dr. Michael Waters, Center for the Study of the First Americans
Experience: Field technician, total station technician, and geoarchaeology field assistant at the archaeological excavation of the Buttermilk Creek site (41BL1239), Texas.

Date: June - July 2008 (4 weeks)
Supervisor: Dr. Ted Goebel, Center for the Study of the First Americans
Experience: Field technician in archaeological survey of Nenana River Valley near Healy, Alaska.

Date: June-July 2008 (4 weeks)
Supervisor: Dr. Michael Waters, Center for the Study of the First Americans
Experience: Assistant field director, field technician, geoarchaeology field assistant and total station technician at the archaeological excavation of the Buttermilk Creek site (41BL1239), Texas.

Date: June-July 2006 (4 weeks), May-July 2007 (8 weeks)
Supervisor: Dr. Michael Waters, Center for the Study of the First Americans
Experience: Field technician and geoarchaeology field assistant at the Buttermilk Creek site (41BL1239) in Bell County, TX.

Date: 2004-2006
Supervisor: Stan Gough, Archaeological and Historical Services, Eastern Washington University

Supervisor: Dr. Jerry Galm, Eastern Washington University
Experience: Part-time volunteer archaeological lab technician, including lithic analysis of site materials and basic cataloguing.

Date: 2003-2004
Supervisor: Dr. Jerry Galm, Dr. Sarah Keller, Eastern Washington University
Experience: Participated in two summer sessions at EWU's Archaeological Field School at Escure Ranch, Washington. Performed site survey work and test excavations at the Longmound site (45WT282).

Teaching Experience (Texas A&M University)

ANTH 415 – Anthropology Writing. Spring 2010
Section instructor

ANTH 340 – Folklore and the Supernatural. Fall 2009
Teaching assistant (Dr. Thomas Green)

ANTH 202 – Introduction to Archaeology. Spring 2008, Spring 2007
Teaching assistant (Drs. Michael Waters and Bruce Dickson)

ANTH 301 – Indians of North America. Fall 2007
Teaching assistant (Dr. Alston Thoms)

Relevant Coursework

ANTH602 – Archaeological Methods and Theory
ANTH621 – Prehistoric Technology
ANTH624 – Geoarchaeology
ANTH637 – Paleoethnobotany
ANTH647 – Lithic Artifact Analysis
GEOG331 – Geomorphology
GEOG660 – Applications in GIS
GEOG686 – Quaternary Geomorphology
SCSC310 – Soil Morphology and Interpretation

Software/Hardware Competencies

Adobe Photoshop/Illustrator/Acrobat
ArcGIS
Autocad
Dreamweaver
Filemaker Pro
GPS

Microsoft Word, Excel, Powerpoint, Access
R
Sokkia Set530R Total Station and hand-held Carlson device
SPSS
Surfer

IV. Conference Papers and Reports

- Keene, Joshua L., and Michael Waters
2010 Geoarchaeological Site Formation Processes of a Weakly Developed Vertisol at the Buttermilk Creek Site, TX. To be presented at the 75th annual meeting of the Society for American Archaeology, St. Louis.
- Keene, Joshua L., Takako Sakamoto, Ted Goebel, Michael R. Waters, and Bob Gal
2009 A New Buried and Datable Fluted Point Site in Beringia: New Information from Serpentine Hot Springs. Presented at the 17th annual Arctic Conference, University of Colorado at Boulder, Colorado.
- Keene, Joshua L and Michael R. Waters
2008 Site Formation Processes at the Buttermilk Creek Site (41BL1239), Bell County, Texas. Poster presented at the 73rd annual meeting of the Society for American Archaeology, Vancouver.
- Galm, Jerry, and Joshua L. Keene
2006 An Archaeological Perspective on the Genesis of “Mima” mounds in Eastern Washington. Poster presented at the 71st annual meeting of the Society for American Archaeology, San Juan.
- Keene, Joshua L., and Jerry Galm
2006 Archaeology and the Genesis of “Mima” mounds in Eastern Washington. Poster presented at the 59th annual Northwest Anthropological Conference, Seattle.
- Site Report Contributions*
- The Gault Site 41BL676: A Clovis Workshop in Texas: Illustration credit
Sentinal Gap (WA), a Late Paleo-Indian site on the Columbia River (45KT1362)
The Longmound site (WA), EWU 2003 and 2004 field schools (45WT282)
Salishan Mesa (WA) site (45GR445)
The Spokane site (WA), a Salish fishing site on the Spokane River (45SP266)
Harrison Bridge Testing project (ID)
La Grand (OR) testing (35UN77)
Crow Butte Survey (WA)
Grisdale Road Archaeological Survey (WA)
SR167 testing in Enumclaw (WA)

Snoqualmie Pass East Testing Project (WA) on sites 45KT2195, 45KT2196 and 45KT2197
